CHAPTER ONE

WHO WE ARE

SCHOOL MISSION & QUAKER VALUES

Guided by Quaker principles and values, enriched by being in Palestine, and strengthened by collaboration within the school community and with external partnerships, Ramallah Friends School (RFS) offers children and youth with an academically rigorous, balanced, engaging and inclusive learning environment of the highest quality standard, every day.

We inspire our students to become a living expression of a spiritual life, and be in constant search for God in all human situations. By doing so, we nurture confidence and intellectual curiosity through experiential learning and innovative application of knowledge and skills, enabling our students to become independent, adaptable but principled, socially responsible, and internationally-minded citizens.

RAMALLAH FRIENDS SCHOOL strives to be a leading educational institution in the Palestinian community. The Lower and Upper Schools were founded in 1869 and 1901 respectively, for the purpose of offering Palestinian youth a rigorous program guided by Quaker principles.

Central to Quaker education is a vitality that comes from being a living expression of a religious life. A Friends School education seeks to promote a constant search for God to all human situations and to cultivate ethical, moral and spiritual values.

Living Our Quaker Testimonies

SIMPLICITY Friends believe that the most important things in life aren't things.	PEACE Friends believe that there is always a path that brings peace, justice, dignity and respect.	INTEGRITY Friends believe that our words and actions must reflect our truest selves.
COMMUNITY Friends believe that we need each other, since each and every one of us is precious to our community.	EQUALITY Friends believe that every person is equally beloved by God, no matter what.	STEWARDSHIP Friends believe that all God's gifts are entrusted to us for the sake of future generations.

LETTER FROM BOARD OF TRUSTEES

At Ramallah Friends School we cultivate community in the face of adversity. This yearbook is a beautiful testament to our faith in community and resolve to live life abundantly.

Great challenges no doubt faced both the proud farming people of Ramallah and the Quaker people of faith who founded Ramallah Friends School in 1869. Yet today, 153 years later, the school stands strong. The challenges have shifted, but the grit to cultivate an open-minded school community remains.

In 1869, Ramallah must have been a busy village in the hill region of Palestine, fortunate as it is today, to have a view of the Mediterranean Sea on a clear day. The people of Ramallah were rugged farmers who grew grapes, figs, wheat, and olives. Yet the difficulty of life, poverty, oppression, and lack of opportunity would have made building a school a formidable task. Today, a grinding military occupation in Palestine denies freedom to our school students, staff, and families. A pandemic and climate crisis cast an ominous shadow. What is perhaps most unnerving is that injustice is normalized. Freedom seems ever more distant.

Yet at Ramallah Friends School we quietly, steadfastly cultivate community despite all odds. Amidst a moment of adversity, the great African American writer James Baldwin cautioned not to normalize injustice in his essay, *Nothing Personal* (1964):

For nothing is fixed, forever and forever and forever, it is not fixed; the earth is always shifting, the light is always changing, the sea does not cease to grind down rock. Generations do not cease to be born, and we are responsible to them because we are the only witnesses they have.

The sea rises, the light fails, lovers cling to each other, and children cling to us. The moment we cease to hold each other, the moment we break faith with one another, the sea engulfs us and the light goes out.

Here Baldwin calls us to keep the horizon of freedom as our focus, however distant it may seem. He broadens our scope outside of ordinary bounds of human vision and calls us to “hold each other” in a community of faith.

Moreover Howard Thurman, the African American philosopher and minister, warned that vibrant community cannot be taken for granted. It must be cultivated. He wrote in 1971 in *The Search For Common Ground*, “Community cannot feed for long on itself; it can only flourish where always the boundaries are giving way to the coming of others from beyond them — unknown and undiscovered brothers.”

Let us keep these insights close as we explore the pages of this amazing community. We are called to seek the horizon of freedom and equality and must continually cultivate community to reach it.

It is a gift to serve the Quaker school community of Ramallah Friends School, composed of a people who demand to live life in abundance. May this yearbook and the ones to follow stand as a demonstration of how we carry the spirit of abundant life with us through the world.

LETTER FROM LOWER SCHOOL PRINCIPAL

RFS turns stumbling blocks into stepping stones with Faith and Hope!

As Palestinians living under occupation, we ceaselessly endure turbulence but never succumb to the challenges of unrest. We have not only learned to cope and mitigate the impacts of adversity, but we have optimistically grown stronger and more knowledgeable. Quality education prevails at RFS regardless of the learning landscape in our relentless world. We innately respond to unprecedented circumstances with utter conviction.

With hope and light, the educational journey continues at RFS, driven by the full dedication, sustained efforts, and cooperation of all the stakeholders ensuring that students develop a love for lifelong learning, especially through a learning environment based on understanding and respect. This was truly reflected in the PYP evaluation visit this year in which we were met with an outpouring of uplifting comments. One comment that truly stood out was, "Not one child is left behind." We take great pride in being the sole institution that provides inclusive education to address the needs of every single child.

Our success is collective, proofed, and steadfast. We continue to learn and grow through every obstacle that we face. We pave every unpaved road to ensure that our students and our community transition in times of uncertainty to advance into the future. So, despite the pandemic, deteriorating economic situation, and living under occupation, we maintain our consistency of the values we teach to our children and continue to successfully provide to our community through numerous programs such

as the white gifts program, community service activities, environmental program, fundraising initiatives in coordination with the PTA for less fortunate families during Ramadan and Easter, and many other activities and initiatives.

This is RFS, the home to generations of thoughtful, compassionate, internationally-minded, and committed individuals who continue to work together to provide a promising future for the generations to come. It is a privilege to serve in this historic Palestinian Quaker community led by the light and hope that keeps us going.

Reflections from the PYP evaluation visit

- "No matters to be addressed,"
- "Not one child is left behind,"
- "Learning spaces are well designed like small hubs with emphasis on developing a culture that supports healthy relationships and effective communication,"
- "There's a safe healthy nurturing environment,"
- "Learning promotes and fosters international minded people who are caring and respectful,"
- "Strong leadership and governance constantly looking where and how to improve,"
- "Resources and schedules are designed and allocated to support teachers' well-being,"
- "Teaching environment and strategies enable every student to pursue and meet their learning goals."

LETTER FROM UPPER SCHOOL PRINCIPAL

"There's a trick to the 'graceful exit.' It begins with the vision to recognize when a job, a life stage, or a relationship is over--and let it go. It means leaving what's over without denying its validity or its past importance to our lives. It involves a sense of future, a belief that every exit line is an entry, that we are moving up, rather than out."
-Ellen Goodman

RFS is where I grew up. It practically runs through my veins now. At the end of seven years of service as the upper school principal, I cannot help but recognize that this phase of my life and RFS's history has ended, and that we are all as a community moving up into a new era. Let me recognize the validity of the last seven years and their priceless value to me, for I have learned immensely from colleagues, parents and most importantly students. When I was a student, my beliefs, knowledge and skills were shaped at RFS. I discovered my knack for chemistry, and my passion for writing as a young teenager. But then twenty years later, RFS proved once again that it has a lot to teach me as an adult and educator. My alma mater, forever and always.

Because human memory can be short, it is important to recognize the achievements of the last seven years at the upper school and to thank the incredible team that made them possible. From the increased success rate in the Diploma Program, to the highest number of Ivy league acceptances, to university scholarships closing in on \$10M, to the increased IBDP average, and the successful evaluation of both the MYP (twice) and the DP (once); all of these and more belong to the RFS community. They are the fruit born out of teamwork and a strong sense of belonging. Schools are made of people and when people work together they achieve.

I once read that memory is the act of the past in the present. I didn't quite understand what

it meant until I worked at RFS. Here memory is not only a passive act of remembering the past, but rather an essential ingredient in shaping the school's present and future. Education is accumulation, and it is only the achievements and mistakes of the past that led us to where we are today as a community.

At the end of every year, I sit to write this letter, and I struggle. I struggle because at the heart of what we do, at its very core, is love. And how do you quantify love, restrict it to a specific word count? Our days are filled with it; sometimes it is happy and carefree; other times it is tough. But, in the end it is indeed Love that brings us together as a community. I always tell students that even when disciplinary measures are needed, they stem out of love. And when discussions get heated between teachers, or between parents, that heat is also generated out of love. It is because we care for the school, its legacy, its existence here in Palestine that we passionately defend it, serve it and continue to be members of it.

So at the end of this year, as I make my 'graceful exit', and as we all move up, not out, I urge you to keep the heat, and preserve the love so that many more generations of Palestinians have the chance to be part of this community.

CULTIVATING SEEDS

رسالة مجلس الطلبة STUDENT COUNCIL 2021 - 2022

خلال عام طويل ومرهق مليء بالصعوبات، تمكن مجلس الطلبة من تحقيق أقصى استفادة مستطاعة وعلى الرغم من وجود بعض العقبات في طريق تحقيق أهدافنا المحددة إلا أننا تمكنا من تحقيق معظمها بالعمل الدؤوب والروح التعاونية. فما كان قد حدث أي من نجاحات لنا كمجلس طلبة لولا الحب والدعم من الطلاب والمعلمين والإداريين وأولياء الأمور الذين قدموا المساعدة الممكنة باستمرار. إيمانكم وثقتكم بنا هو الدافع الذي أردناه للاستمرار والعمل بجدية أكثر.

وها نحن علي مشارف نهاية هذا العام الدراسي، فمن واجبنا أن نشكركم جميعاً؛ من أجل العلاقة الحميمة، والمساعدة، والأهم من ذلك هو عدم فقدان الأمل منا ابداً. و نحن مدينون لكم بكل شيء. نحن أفضل معاً ، ولا ننسى أبداً أننا نتحدث بصوتكم!

مع الحب،
مجلس الطلبة.

In this immensely stressful yet thrilling year full of ups and downs, the Student Council has passionately managed to make the best out of most situations presented our way. Though numerous obstacles were encountered when endeavouring to achieve the goals we have set, most objectives have been accomplished through our drive, devotion and determination. Undoubtedly, the constant admiration and support bestowed upon us by our fellow classmates, teachers, administrators and even parents were a significant source of motivation and encouragement to work hard and keep going. Conversely, it was undeniably challenging to catch up on all the activities and duties of the Student Council after missing out on so much for about two years due to the Coronavirus pandemic, yet we managed to make up for a lot despite the various restrictions and regulations we had to abide by.

At the end of this year, it is our duty to thank RFS for offering us the opportunity to help convey the inspirational voices of many students aiming to better the School's facilities and community. After all, we are better together, and always keep in mind that it is your voice that we are sharing.

With love,
Student Council.

White Gifts, Service as Action, and CAS Programs @ RFS

RFS young students begin their journey of social responsibility through bake sales, as part of the White Gifts Program. Once they are at middle school level, they engage in a range of service activities within the Middle Year Program's (MYP) Service as Action (CAS). High school students complete their Creativity, Activity, Service (CAS) activities alongside their academic studies as an essential element towards achieving their International Baccalaureate Diploma.

All three programs are means for students to learn about fundamental concepts such as giving and collaborating. Community service is at the heart of RFS mission, embedded in its Quaker values and aligned with the International Baccalaureate program. RFS students are provided with opportunities beyond the classroom, they are provided with valuable insights into their community and practical application of their knowledge in the real world. RFS seeks to help its students not only to grow as successful adults, but as good people, where "each lives for the other and all live for God".

ENVIRONMENTAL STEWARDSHIP IS
ONE OF OUR SCHOOL
VALUES.

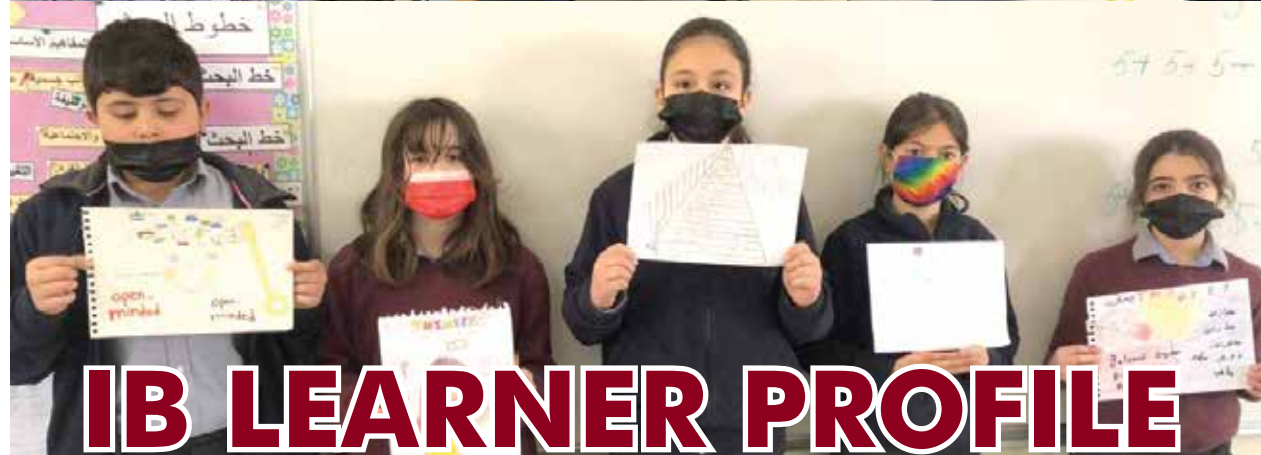

ENVIRONMENTAL STEWARDSHIP

We believe in the responsible
use and protection of the
natural environment through
conservation and sustainable practices.

This year, RFS' Environmental Clubs
were revived with students and
teachers planting and maintaining
organic crops, and composting as
part of our student-learning centered
program.
