## ADMINISTRATION & FACULTY

Dear graduates:

As another school year draws to a close, there will be those of you to whom this will mean an end of academic life and the beginning of a professional career to which you will be dedicating your entire life, while to others it might be just the beginning of a new academic life. The most that I can wish you is that with God's help, you will be both successful and happy.

What do I mean by success and happiness? This is no place for me to write an essay, but let me at least define the terms I have used.

Success is the attainment of a goal which you have set for yourself. Happiness is a state of inner contentment and bliss which enriches your life and makes it worth living.

Success will only lead to happiness if there is harmony between the nature of the goal and what makes for real happiness.

Success and happiness will surely be yours if you try through out your life and in your dealings with others, whether they be relatives, friends, classmates, bussiness associates, clients or coleagues to be honest with them in your sayings and in your duties.

May God give you the vision and the courages to see the truth and support it and may He reward you according to the loftiness of your goal.

Fuad Zaru

# MORNING GREETINGS

Caviar anyone ?

Two days from every week the school meets in the chapel where either a Senior or a teacher provide a program. Usually this program consists of a speech which is to the benefit of everyone. But sometimes plays are conducted which have a great boost in the students moral for the rest of the day.

Always picking on Sam ?

# THE SCHOOL LIBRARY

## FBS LIBRARY

The Friends Boys School is fortunate to have a well-stocked library where students can study, enjoy reading, and carry out their research assignments for Mr. Devine and Mr. Kapenga. The library is under the direction of Ms. Tabri. Each year new books and journals have been added to replace some of the older volumes.

# THE SCHOOL LABORATORY

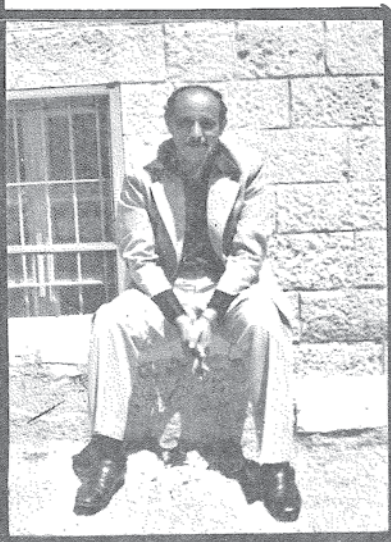

## FBS LABORATORY

The Friends Boys School laboratory, even though well equipped, needs to be more modernized. Through these last few years, F.B.S. has been working hard on these modifications. Students frequently, under the direction of their science teachers, perform laboratory experiments which help them greatly in their understanding of the sciences. The laboratory is under the direction of Mr. Rasheed.
