You have captured us!

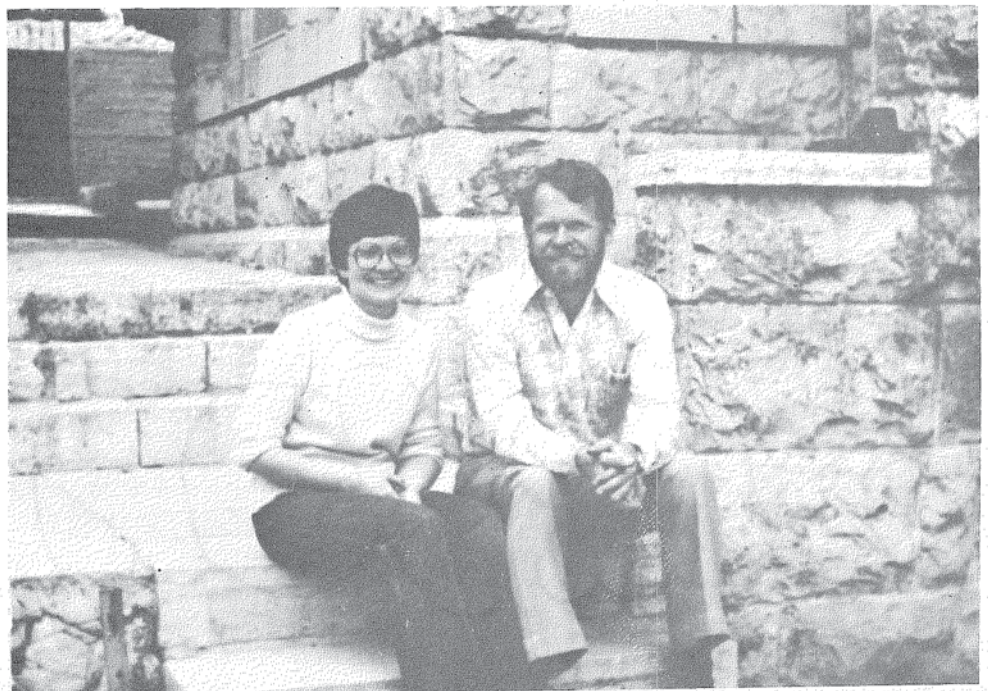

Wherever we go in this world, a part of our hearts will remain with the friendly and courageous people we have met while here at F.G.S. Regardless of the many troubles which plague your daily lives, you have opened your arms to us with a generous "Ahlan wa Sahlan". Because of our contact with you we have received a very special blessing. Indeed, we could never hope to return to you the smallest fraction of the many kindnesses you have bestowed upon us.

Teachers, your supporting spirit has sustained us through the past four years. It has been a pleasure to work with you towards a common goal - the academic, spiritual, and physical development of our students. We have learned many valuable lessons from you. We hope to be able to put them to good use in the future. We pray that God's richest blessings will be with you.

Students, your friendliness, positive outlook, and hard work (from most of you) will not be forgotten. We are hopeful that the dreams you have for your land and people will become a reality for your children. Your continuing faith in God will be of paramount importance if this dream is to come true. Your continued diligent efforts in the classroom will also have a bearing on the attainment of your goals. Keep up the good work!

You have captured us!

"A great teacher appears once in a while. Several centuries may pass by without the advent of such a one. That by which he is known is his life. He first lives and then tells others how they may live likewise."

S. Radhakrishnan

Dear "Class of 81"!

I have not included the quote because I have any illusion of being a great teacher. The quote is here to remind you of two things. First, to teach the most important things in life, it does not matter whether you are standing at the front of the class or sitting at the back, it matters how you live. Second, I hope the quote will remind you of the ways of the great teachers whom we have studied together.

So often it is not what we are doing together but the way we are being with each other that we remember and treasure. Every now and then, I catch a glimpse of each of you happy, giving, and alive! Then, I smile and say to myself "now that's really Samia" or "that's really Mohammed" or "that's really". And, I hope that as your lives go on, each of you will find yourselves being more happy, more giving, and more alive!

"How?", you may ask. I'm still struggling with the question; let me know if you find the answer. But, there are two things that seem to have proved to be good advice: One, a person suggested, that the meaning of life comes from finding how God is working in the world during the time in which you live. The other, a person suggested, that you ought to do what you love doing and the rest will take care of itself.

These two ideas do not necessarily conflict. We can develop our talents by doing the things we love and by keeping ourselves open to trying to understand God's purpose. If we do these things, then God will find a way to use our talents. Whatever it is that allows us to be joyful, loving people, it allows us to do more good than we ever would have if we were constantly doing what we thought we should do.

Each of you has a number of marvelous qualities and abilities to give to the world. Try to find more ways to use your strengths and don't worry too much about your weaknesses.

I have learned much from what we have shared, Thank you! May God bless you, strengthen you, and cleanse you. And, may each of you become good teachers for your family, friends, and country!

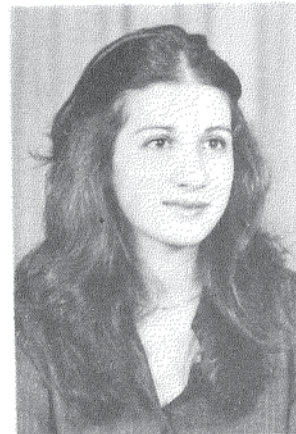

Blessings,

Jan Palmer

F.G.S. STUDENT ASSOCIATION

The Student Association was established in the year 1981. It was formed to bring more unity among the students. There are several ways in which the Association approaches getting this unity. It tries to improve the academic standards of every F.G.S. student. It also tries to gain more cooperation and friendship between the students of neighboring schools and those of F.G.S. A better social, cultural, artistic, and physical interest in their heritage and school is encouraged in the students. This helps them to relate to other people and give assistance when it is needed.

There are certain clubs which branch-off from the main body of the Association, which also help unify the school. The Cultural Committee helps students become more aware of their Palestinian background. It does this by having lectures, posting bulletins, and planning activities together with other schools. The Social Committee creates unity in the students by staging gatherings and parties. These affairs, on occasion, are connected with other schools in order to help students from different places be able to better relate to each other. The Art Committee acquaints the students with their Palestinian heritage. It teaches traditional dances, songs, and folklore from this land. It helps them to appreciate their heritage and make it an important part of their lives. The P.E. Committee arranges games and sports activities which further the spectators' enjoyment as well as the participants' physical ability and endurance.

Each of these committees work together to back up the school and create cooperation between both teachers and students. With this being the first year of the Association's existence, it has had many rough-edges as well as effectively being an asset to the school.

The Student Lounge was finally opened, and now gives the student-body a refreshed sense of importance and belonging. The Debka groups have shown great ability and bring pride to the entire school. The lectures and bulletins have helped inform the school of what is happening, what has happened, and what can happen in the future.

There are countless other ideas and accomplishments which the Association has strived to fulfill this year. Not all have yet been completed or materialized but the efforts have only begun. The idea of unity and the goal of understanding, being with, and sharing with the people of this great land, during hard and good times, is a goal which has been successfully achieved at F.G.S. during this year, "1981".

LAST WILL AND TESTAMENT

We, the Senior Class of 1981, of Friends Girls School, being of perfect health, unquestionable mind, and excellent memory, knowing the certainty of departure, do make, constitute, and appoint this our last will and testament.

Yousef would like to leave his good looks to anybody in Sec. 2 but nobody wants them so he will leave his ability to wake up early enough to be in time for classes and school trips to Haifa Maayeh.

Sandra leaves behind her modesty and ability to always talk but never be heard to Deana Ziadeh.

Da'ad, our very own "professional" singer and belly-dancer, gives her talents to the much-in-need Joey Ally.

Rita has decided to bestow her position as "teacher's pet" upon, yes, that's right, Firian Rashid.

Hanan passes on her expertise to screech the high parts in the chapel songs to Vafa Rukab.

Mohammed and Adel will let Issa Hanna and Nasser Musaitif take control of their "vitamin-N sticks".

Jamileh is going to push her strong urges to participate in class on none other than Rula Khoury.

Julie is giving her leather pants to Saher Abu Khater.

Aida will hand over all of her great skill to eat in class without getting caught to Deana Shihadeh.

Lucy leaves her "Pig Power" to the person who ends up sitting in her desk next year.

Suha K. gives her good grades to Fatmah Mohammed.

Raina is finally getting rid of her red face every time she is spoken to by giving it to Omar Ismail.

Edward Gives his habit of taking naps on the ground during the "big game" to Ra'eda Arafat.

Jamal is going to bless our dear librarian, Mrs. Hawit, with his talent of being able to remain calm, cool, and collected no matter what happens.

Samia leaves her sincere serenity to Ola Hamdan.

Samar wants to give her superior knowledge and experience in dealing with people to Samar Husari.

Soaad leaves behind the advice to everyone in Sec. 2 to not even try to participate (and let's not talk about trying to run the show) in the Student Association, yearbook, newspaper, basketball team, and be an office helper all at the same time.

Suha A. will hand down her complete set of English "study" dictionaries to Tina Jabber.

Hanada gives her passionate love for the Tawjihi to all of the Arabic-Speaking students in Sec. 2.

Rouda insists on giving her tendency to become violent for no reason to Fedwa Mustafa.

Suzie will let Nadia Yunes take control of her much coveted collection of English essays.

Executed this seventh day of June, 1981.
