## Address of the Principal

It pleases and makes me feel proud as we near the end of the 1993-1994 school year to give an overview of some of our accomplishments at the Friends Girls School. It has been a year brimming with activities and full of giving on various levels.

### 1. Renovation

The main building on campus, in existence since 1885, was renovated during the summer vacation last year, hence the school year began with new vast rooms for computers, music, art, the library and a science lab for the primary levels as well as Prep I. The new area has enhanced these various resource rooms and added a much more suitable environment for learning.

### 2. Academic Achievements

A number of accomplishments have marked this school year, of which we will mention here:

- (i) teaching computer science to the 5<sup>th</sup> and 6<sup>th</sup> grades whereby two students share each terminal and reinforce each other's understanding of the subject;
- (ii) a continuation of the French as a foreign language program in conjunction with the French Consulate for the students of the 4<sup>th</sup>, 5<sup>th</sup> and 6<sup>th</sup> grades, to be expanded to the 7<sup>th</sup> grade curriculum in the 1994-1995 academic year;
- (iii) initiating numerous brass, string and wind instruments for the music department and thus opening the doors to an FGS concert band.

### 3. Extracurricular Activities

We students and teachers are proud of the hard work put into the various activities that complement our academic achievements. The numerous extracurricular activities at the FGS include:

- (i) The **FGS Club** with its various undertakings including gymnastics, ceramics, computers, choir, basketball, music, debkah, karate and drama in both Arabic and French. These activities along with other sports made "Open Day" a great success this year along with one play in Arabic, another in French and the music program;
- (ii) The **Science Fair** that included experiments performed by the students at the elementary level was a grand success and wonderful learning experience, as well as it being just plain fun to set up and present projects to visitors
- (iii) The **Art Exhibition** which included various subjects taught to the student during the school year;
- (iv) A visit by a Finnish clown to the kindergarten and first grades thoroughly entertained the children;
- (v) Teaching the students health and personal hygiene through a series of lectures given by a parent, **Dr. Taroub Harb Faramond** was a reflection of the cooperation encouraged between the school and parents;
- (vi) Cooperation of students with the school librarian in publishing three editions of the publication "Friends of the Library" that include educational items developed and presented by the students themselves;
- (vii) Revival of the **Passports to Reading** program in the library in conjunction with Tamer Institute for Community Education;
- (viii) Work on the strengthening of ties between the students and the community where they visited charities as a part of religion and ethics classes. These visits greatly affected the students who were permitted to see parts of their community that are not always evident to them. Students also worked on raising funds for the **White Gifts Program** through which 41 impoverished

families benefitted. The **YMCA Choir** was invited to the school where it performed before Christmas and the proceeds of the successful event were donated to the White Gifts;

- (ix) Cultural contests and plays were regular events during the Monday morning assembly meeting known as "**Chapel**" throughout the school year.
- (x) Students went on an enjoyed numerous fun and educational trips to religious and cultural sights, getting to better know their country.

#### **4. Upgrading Skills**

The FGS has always sought to upgrade the skills of the teachers in order to keep them informed of the latest developments in teaching and education. Development activities for teachers include:

- (i) sending one of the FGS English teachers to the annual TESOL (Teachers of English as a Second Language) Convention in Baltimore, USA with funds raised here in Palestine;
- (ii) sending the French language teacher to a conference in France on children's issues;
- (iii) holding a workshop in October whereby professors from local universities discussed educational issues with our teachers;
- (iv) having 4 FGS teacher participate in a workshop for private school teachers to be held in August sponsored by the Nahda Society and Bethlehem University.

#### **5. Yearbook**

I would like to mention here that with the end of the school year we will lose one of the most active teachers and a dear friend who has contributed 4 years of her life to the two Ramallah Friends Schools. **KT Ockels** was responsible not only for teaching various levels of English and history at the Schools but for making the FGS yearbook a self-financing project for the school. KT's initiative in organizing fundraising activities such as plays, social activities and T-shirts sales were integral to the production of the FGS yearbook and a wonderful experience in organization, marketing and publishing for the students that she mobilized to work with her. Our deepest appreciation to KT and the Yearbook Committee for their efforts and commitment in producing the 1993-1994 FGS yearbook.

#### **6. Discipline**

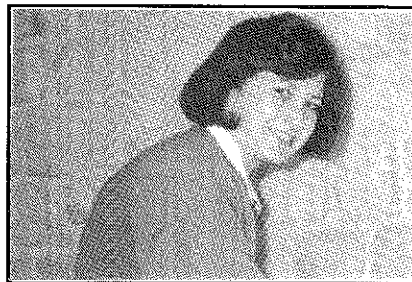

New rules and regulations have been initiated at the School in order to enforce discipline and encourage healthy behaviour amongst students. The honor badges marked with the FGS emblem have provided an additional incentive for students to be at their best both inside and outside their classrooms.

These are some of the accomplishments that we feel proud of from the past year. It has been a successful year with little interruption as compared with previous years. Only at the time of the heinous Hebron massacre was the school interrupted for any length of time.

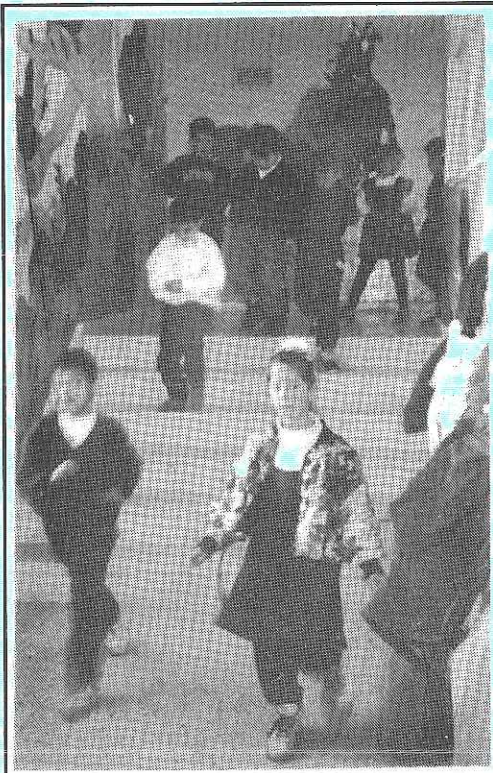

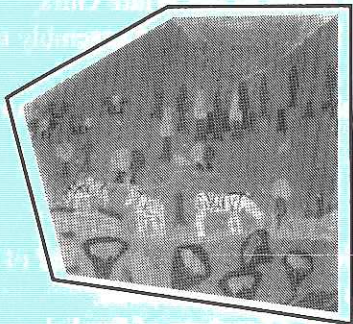

As for real driving element of the School, those who study and work in it, I would like to say to all who have dedicated themselves, teachers, students and administrative staff alike, how proud I am of them all. I extend my warmest wishes to those who will be leaving us and hope that those who remain will continue to work on keeping their high performance standards at the FGS.

# Declaration of Principles

On September 9th, Palestinian President Yasser Arafat reiterated the P.L.O.'s recognition of the state of Israel. This was followed one day later by a ceremony in which Israeli Prime Minister, Yitzhak Rabin, recognized the Palestinian Liberation Organization as the representative of the Palestinian people. These two gestures came at the end of fourteen months of secret negotiations which had been held between Israeli and P.L.O. officials in Norway.

On September 13th, Rabin and Arafat signed an agreement in Washington that began a process of limited autonomy for Palestinians living in Jericho and the Gaza Strip. Although it was considered to be a historic event and many people celebrated in the streets, there were also many people who were confused and worried about the meaning of the agreement. After watching months of open "peace negotiations," it was confusing to hear that the agreement would come from a completely different set of talks. Also, although an agreement was signed, no one really knew what the agreement said. People felt hopeful, but also as though they would need to wait and see what would happen next.

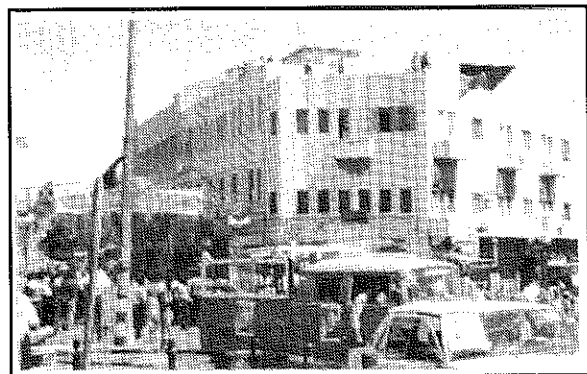

Although the world seemed to think that peace had come to Palestine, the situation on the streets of Ramallah did not change dramatically. The biggest changes came in the form of longer opening hours for stores and the sight of Palestinian flags everywhere. People could buy T-shirts, keychains and many other

things with flags on them. One day, a person could be killed for having a Palestinian flag, and the next day they were being sold everywhere. There were protests for the agreement and protests against the agreement. It was exciting, but also confusing and scary.

"After the agreement was signed and there were still problems in Ramallah, I felt that they had cheated us. The agreement was about peace, but there is no peace. They are still killing people. And the Palestinians have started to kill and kidnap Israelis. It is a war, because in the end everybody will be hurt. On the day of the agreement, everybody was happy. But after the agreement, the fighting began. Many people were hurt and killed by the soldiers of Israel.

We still want a real peace agreement."

# With Summer Came Changes

This year, 1993-94, showed many changes in the Friends Girls School. These changes are obvious in two areas: externally, concerning the garden and the playground; and internally, concerning the office building, the computer room and the library.

A visitor to F.G.S. is welcomed by a nice garden and colorful slides and swings. A path, surrounded by beautiful flowers, leads you to the office building. As you go inside, you will see the new stairs that will take you to the remodelled computer room. It has glass walls and it is next to the library, which has many new books for us to read. The whole building has lost its "plaster look" and now we can see the beautiful stone that was how the original building looked.

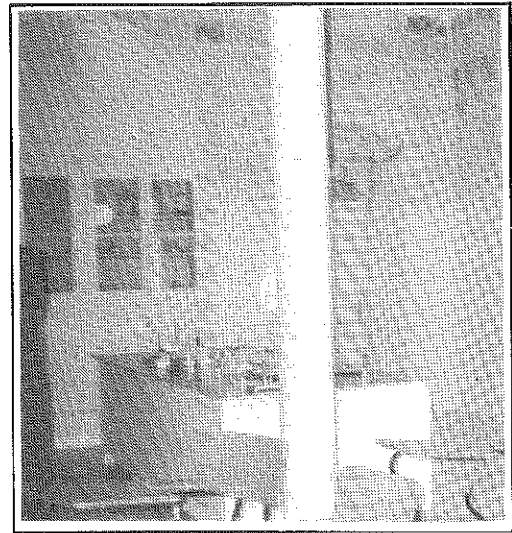

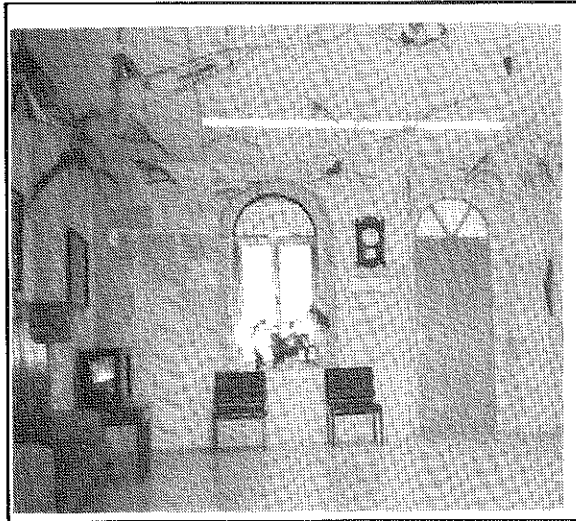

These changes in our school have truly affected us and we love them.

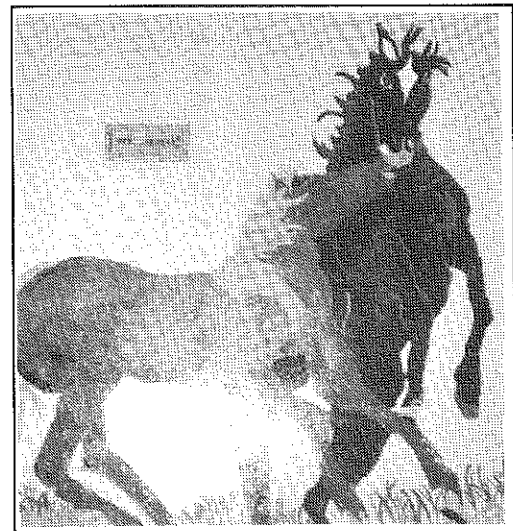

We students thank the government of Nordrhein-Westfalia for their contributions of musical and p.e. equipment, and USAID for funding our renovations!

The walls of the new Shaheen Building were also made more colorful by the hard work of a small group of F.G.S. students. The students came in to work with Ms. Mary McKone over the summer. They made the walls come alive with beautiful animals.

In addition to all of the beautiful renovations done by the generous help of USAID and the Nordrhein-Westfalia government, we also received help from a workcamp help last summer. Participants from the United States joined older students from the Friends Schools to help with the task of making our school more beautiful. The camp was sponsored by the Presbyterian Church (USA). At the Friends Girls School, they helped by painting, weeding and helping to move the school library during renovations.

# The Haram Al-Ibrahimi Mosque Massacre

On the morning of Friday, February 25th, the 15th day of the month of Ramadan, an Israeli went into the Ibrahimi Mosque in Hebron (Al Khalil) and began to shoot the people who were doing their morning prayers. Because the people were not expecting an attack in a holy place, many were killed and even more were injured.

After that day, there were curfews all over Palestine. In Hebron, the curfews were even stronger. Neighboring countries such as Jordan offered medical aid and money for the families of those killed.

The massacre affected all Palestinians. It made us all think about our bad situation. Every day one or more of us is killed. We worry that there could always be another massacre in which we will be killed without having done anything.

## Bosnia

Sarajevo is a city which stands face to face with its prospects. It is a city of three religions: Islam, Christianity and Judaism. The people of the three religions never hated each other and always lived happily together. But in 1991, this beautiful paradise turned into a living hell as various factions began fighting with one another. This situation continues until today.

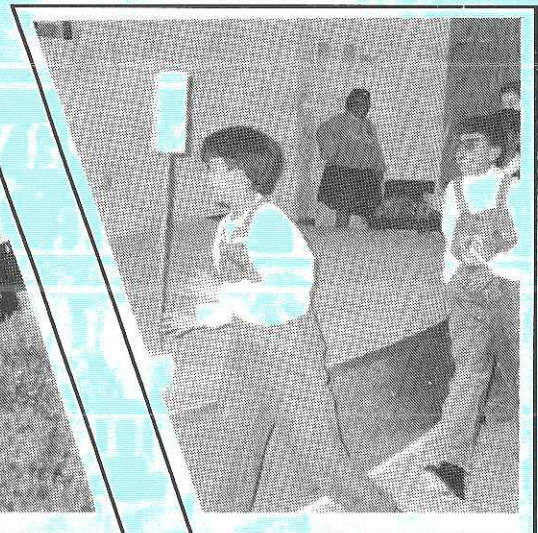

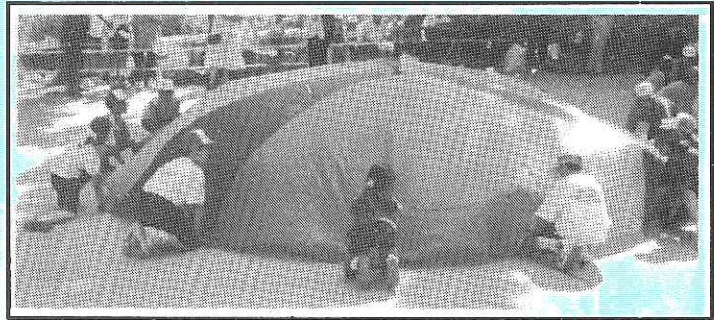

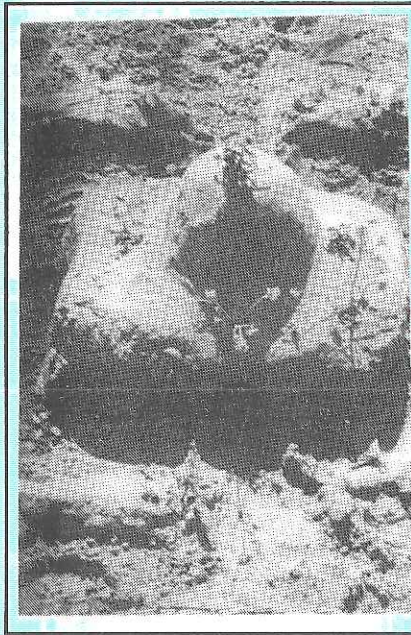

In January of 1994, missiles were fired on a crowded local market. This resulted in the death of tens of people, with hundreds being injured. And this is only one incident in this horrible war. The U.N. has tried to help, but the Serbs don't seem to listen.

# The New Autonomous Areas in Jericho and Gaza

?or?

Palestinian police stopping Israelis at a check-point? Sounds like some sort of a dream, but in some areas of occupied Palestine it has become a reality. In the city of Jericho, and in parts of the Gaza Strip, Israeli soldiers have withdrawn, leaving Palestinian police in their place. It is difficult to know what the long term effects will be for the people in those areas. Certain changes, such as the lifting of the nighttime curfew in Gaza, bring much more freedom to the inhabitants. At the same time, there are still few jobs for people. Only time will tell if there is any real freedom involved in autonomy.

"It's interesting how changes in politics bring about change in life. On the 4th of May, an agreement was signed between the Palestinians and the Israelis. It's supposed to have put an end to years of war, hatred and bloodshed.

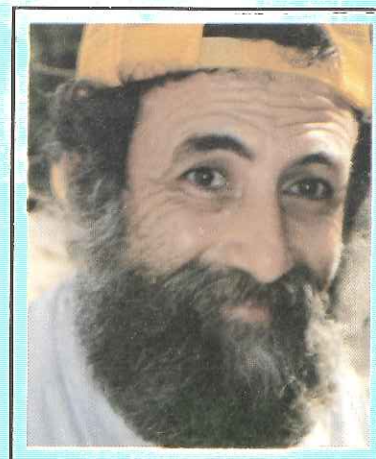

This change in politics brought about a big change in life, especially in the city of Jericho. I was in Jericho on May 15th. The city, which in the past was almost dead, was full of life, people and activity. Poets were reading their poetry; young men were dancing and women were singing in the streets. People filled the roads, gardens and parks. Everybody enjoyed peace and freedom."

## The Ninans

This year we were very lucky to have two students from India at F.G.S. Manisha and Manjusha came to Ramallah with their parents, who were exchange teachers at F.B.S. They taught us a lot about their country. We were sad to see them go at the end of the year, but we wish them well as they return to Kodaikanal International School.

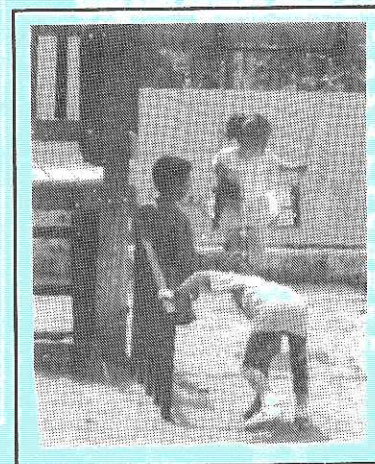

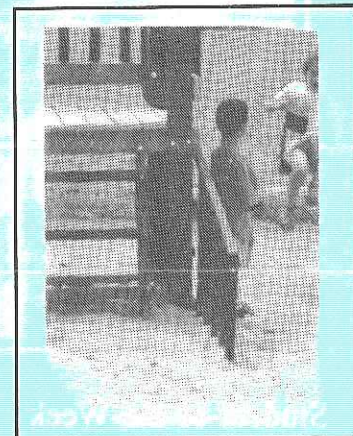

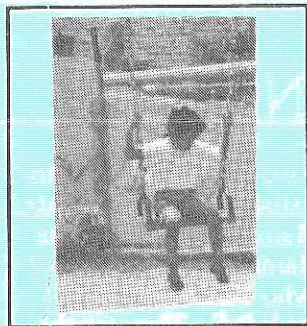

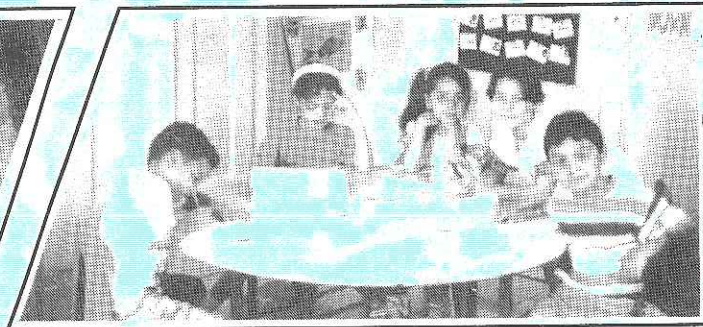

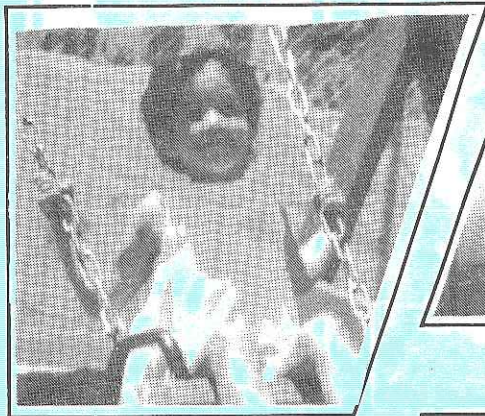

## Student-of-the-Week

One more change this year was the creation of the Student-of-the-Week award. Every other week, two students were chosen from each class. These were the students who had most contributed to the school community. The students received a button that they could wear on their uniform.

He forgot to bring his map, so he went out and didn't know where he was. He looked everywhere. Then he asked a man. He went to the hotel. He went to his home. Then he went to sleep.

# Sixth Grade

Until a few months back, everything was normal: school, life, everything. Now, I have started to feel a change in my thoughts and ideas, about scientific subjects like biology and space, the change in my body and the change in my relations with my friends and relatives. I don't understand it very well, but they tell me it's part of growing up.

## التغيرات في مدرسة الفرندز

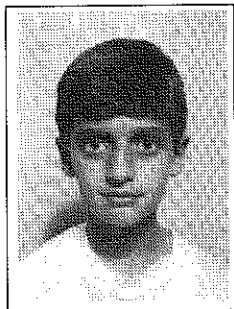

إذا دخلنا مدرسة الفرندز للبنات في هذه السنة، نرى أنه قد جرت تغيرات كثيرة . فمن هذه التغيرات ساحة المدرسة ، فقد وضعوا ألعابا جديدة نستطيع أن نتسلى بها أثناء الفراغ ، وأيضاً جددوا ملعب كرة السلة . أما إذا اتجهنا الى عمارة الادارة ففيها أيضاً تجديدات ، فقد بنوا مدرجا يتجه الى غرفة الحاسوب (الكمبيوتر) وقد أحضروا مجموعة حاسوب من نوع جديد كي نتدرب عليها بدلا من المجموعة القديمة، على يمين غرفة الحاسوب توجد المكتبة وأهم ما فيها أنها أصبحت مهيأة أكثر للقراءة فقد أحضروا كتباً جديدة ومفيدة لنا كي نستطيع أن نجد كل ما نحتاج اليه من مكتبة المدرسة . على يسار غرفة الحاسوب توجد غرفة الفن وغرفة الموسيقى . في غرفة الموسيقى أحضروا آلات جديدة لكي نتدرب عليها وأيضاً تتيح لنا الفرصة للتعلم على الآلات الجديدة . هكذا أصبحت مدرستنا جميلة ومريحة ومسلية أكثر من كل المدارس .

# Seventh Grade

I will remember the F.G.S. as the one that, with God's will, put me on the road to success...

Maher Darwish, 7A

I will never forget my school, the second home for me. I have been in this school for 7 years. I will never forget my teachers or my class until the day I die.

Lama Samad, 7B

I will never forget my school and my teachers.

Manar Hassoneh, 7B

I will never forget my school and my teachers forever. I wish many happy years for my school.

Ayla Awad, 7B

I like art classes. I like to use my hands to draw things I feel. Except for being afraid of a negative point, it is my favorite class.

Lara Tannous, 7B

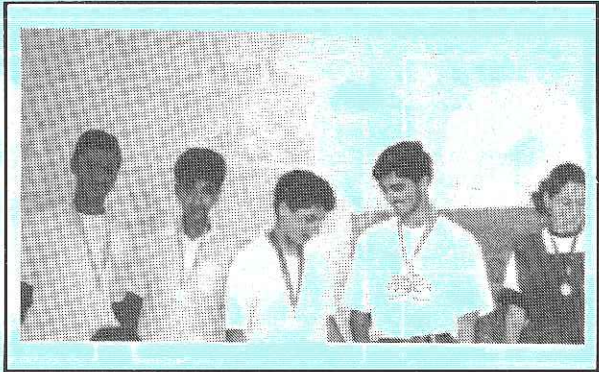

Time has passed, and it is time to separate from my old school, the school that is my second home and where I spent some wonderful days. I won't forget my old school.

Ola Ayesh, 7B

My classmates as a group behave differently in each class depending on the subject. For example, in English and Arabic, we find it more exciting so we participate in class. Our poor science teacher wastes her breath trying to make us understand the subject. Arabic math is taught in a simple way, but many of us don't pay

attention, and then we say we don't understand. In the art class, the students are very creative, because we are learning many things that are new to us. In conclusion, one can see that controlling our class is not as easy as we think.

Laila Rimawi, 7A

At the end of this year, I would like to say goodbye to this school. I will never forget it or my memories in it.

# Yearbook Committee

This year the yearbook was produced as an activity of the F.G.S. Club. Committee membership was open to any 6th or 7th grader. The members of the yearbook staff have worked hard to produce a yearbook that we will all enjoy. We are very thankful to all of the staff and parents who supported our efforts. Special thanks to Ms. Rana and Ms. Marisa for all of their help this year. We are also very thankful to Debbie the photographer, Cathi the proofreader, Rachel the layout woman and all of the people who have helped us in so many ways to make this yearbook a success.
