

Palestinian Education Since 1889

Commitment to excellence in education. The Ramallah Friends School aimed to be at the cutting edge of education, offering its students with new methodologies and curricula.

Commitment to developing the whole person. We aimed to develop the mental, physical, emotional and social dimensions of every student.

Commitment to recognizing every person as a special creation of God. We are cognizant of the fact that every child is different with varying abilities. It is also the philosophy of the School to develop to the extent possible those varying abilities.

Commitment to developing students as good and useful members of their societies. Cooperation, tolerance, compassion, respect and non-violence are inherent traits the Friends Schools would like to foster in their students.

Commitment to equality. The Friends Schools believe that all people are equal before God regardless of creed or social status. The interaction between students, between staff and students, and between school and community are to be based on mutual respect and an understanding of this concept.

Commitment to respecting students of different faiths. Through assembly, programs and courses in ethics and religion, we intend to teach a tolerance of and a respect for the varying faiths in our community. Every individual is encouraged to seek and to respond to God in the way that is most practical and satisfying to him or her.

Commitment to developing international understanding. With students and faculty of varying national and cultural backgrounds, and through student exchange programs and courses which will expose to them and develop an understanding of and respect for differing cultures and to produce the citizens of the world.

A LETTER FROM THE PRINCIPAL

As we approach the end of the 1994-1995 school year we can, I believe, look back on the year with great satisfaction. However, this satisfaction is mixed with pain, for we lost one of our sixth grade students, Anan Barghouthi, who died in a car accident in November. The tree which we planted in his memory will keep reminding us of this boy, who was full of energy and life.

Academically, the year went very smoothly, without any interruptions -- a notable change from the frequent disruptions of the previous years. I believe that we have achieved our goals.

This year, there were many extracurricular activities at FGS; these activities played an important role in enriching the lives and minds of our students. As I write this, I look forward to the Open Day, which will include plays, debke, music programs, a science fair and an art exhibit. These activities are the products of the hard work of our students, who are supported and guided by their teachers.

In addition to the above, I shouldn't forget the White Gifts program, our Christmas program, the Chapel series, the football and basketball games, the December Workshop on Girls' Education, and last but not least the production of this special yearbook.

Many students and teachers were involved in making these activities a success. It is to them that I would like to extend my gratitude.

Students, your positive outlook and hard work will not be forgotten. To the seventh graders who will leave us for FBS, I say, "We will miss you."

Teachers, thanks for the hard work and for your supportive spirit. You have proven that by cooperating we can achieve our goals. You have really made this year the year of "togetherness" at FGS.

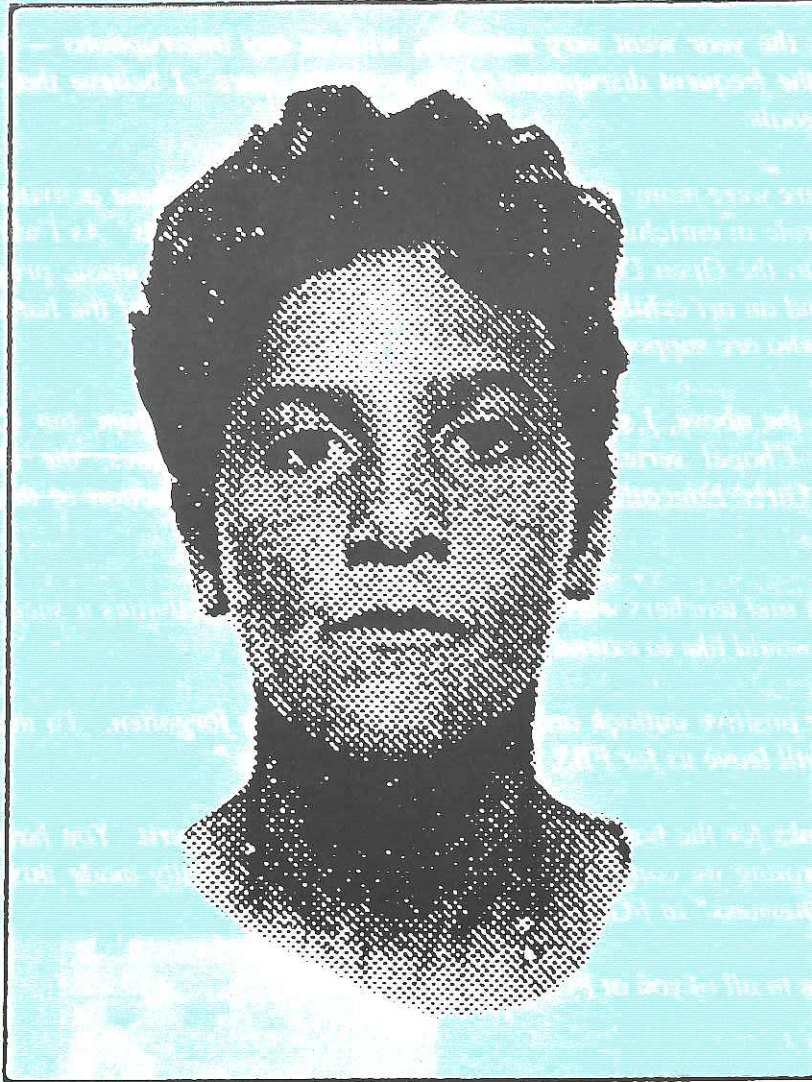

My best wishes to all of you at FGS.

Sincerely,

Diana Abdel Nour

In Memory of Anan Barghouthi

في ذكرى
عنان برغوثي

إلى عنان

أعتقدت ان الطفولة أخذ دون عطاء...

حب و سعادته ... فرح ... و مرح ...

وكثيراً ما ترددت أمامي منذ الصغر كلمات مثل الفراق - الموت... والوفاء... لم أدركها ولم أعلم أو أتصور يوماً بأن شبح الموت يصل إلى دنيا الطفولة... فوصل إليك يا عنان . و وصل إليك وأخذك منا دون وداع... لم يا عنان !! كنت لا تتركنا إلا بعد أن تلوح بهديك الأثنتين ، لم تركتنا ؟ فنحن كنا على موعد للقاء ، أجل ، لقد التقينا و ما أمة من لقاء رأيتك ولم ترني... كأمّتك ولم تكلمني... يا إلهي !! لقد رأيت السكون بعد المصافاة... ورأيت النوم بعد العنفوان... نمت وكان يوماً طويلاً... إنني أكرهك أيها النوم اللعين... لقد أخذت مني أعز صديق... لقد كنت يا عنان الجريء المبادر... الشجاع... القوي... لا تبالي أن يكون للمشكلة عواقب و أن واجهتك مشكلة تلقينا بجماتك التي أتذكرها دوماً "If you want to be happy" " طيش و طي على النبي "

لم تفادق الأبتسامه وجمك ولم تعرف الدموع طريقك... كنت دائماً تبحث عما يسعدك تصادم الأيام و تغلبها ، تلميها و لا تهلبك... لم يكن للفرانج في حياتك وجود... طرقت كل الأبواب... كنت تلعب م تتكلم و تتحرك و تعمل ما تريد ، و كأنك تكسب من دنياك ، و تعلم أن أياك محدودة ، و أنك في طريقك إلى الرحيل ، لكنه رحيل صعب و قاسي يا عنان !! رحلت إلى السماء... فذكراتك يا عنان ما زالت مرسومة أمامنا على مقعدك و على كرتك... خطواتك ان ننسها أبداً و شجرة لذكراك زرعنا لتكون عناينا انا .

صديقك الباقي على ذكراك

أشرف محمد سليم

Cooperation:

Working together towards a common end

commonality; community; harmony; concordance; concord; fellowship; fellow feeling; solidarity; teamwork; working together; joining of hands; mutuality; mutual assistance; reciprocity; common effort; united action; alliance; partnership; comradeship; camaraderie

Cooperate:

To act jointly with another or others; to work together with a common objective
harmonize; concord; join; associate; combine; coalesce; partner; join together; work together; work as a team; act in concert; hold together; stand together

Cooperatively:

With mutual support and assistance

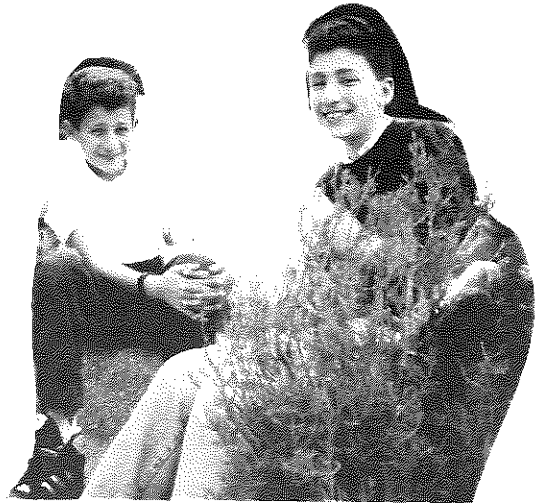

in concert with; harmoniously; concordantly; collectively; communally; together; as one; with one voice; in unison; in chorus; side by side; hand in hand; shoulder to shoulder; back to back

This year's yearbook is intended to capture the spirit of cooperation and togetherness that we hope is central to all of our experiences at FGS. From our occasions of greatest joy to our moments of greatest sadness, we at FGS try to approach life and school together, hand in hand, gaining strength from each other and sharing that which is best in each of us. We are very different in our backgrounds, in our interests, and in our faiths, but we come together to create a kind of family, a partnership of minds and hearts that supports and encourages us in every endeavor. Join us as we reflect on what it is to be

together...FGS!!

Cooperation means for me to be kind to to others or to be helpful; it has many results like to be stronger or we can do things in less time. I think all the people in the world need cooperation, and with it all the people will love each other. When I cooperate I feel happy because I'm doing something good and important for myself and my society.

Tariq Abu Halaweh 7A

Cooperation is very important in life because no-one can live alone in this life; it will be impossible. It is a wonderful feeling when you help somebody in a difficult matter and in return he will help you also. We must use our mind, our position, our wealth, our education and even our physical strength to help each other. If we do so it will be a wonderful society and a world of justice.

Razan Nazzal 7A

Cooperation means to me first of all the cooperation of the citizens to the government, to have order in the country, no crimes or throwing trash on the sidewalk, but sharing your ideas with the government ... to be democratic. Cooperation is very important to our survival in the real world because when you are out of school you need to have people around you to cooperate with you and show you the new place. Life needs cooperation; without it the world would go to chaos.

CHARITABLE ACTIVITIES

Each year Miss Lena's students visit a variety of social agencies and charitable societies, in order to increase students' awareness of social issues and the needs of others in their community.

Q: What is the interaction like between your students and the people you visit?

Miss Lena: Usually, the hosts' responses are great. They wait for our visits; one time when the Ramallah Women's Union was putting out their Christmas tree they asked "When are the FGS students coming to visit us?" because usually at that time each year the students visit them. Our students were pleased with the services that the refugee authorities give to the refugees.

Q: What were the places you visited?

Miss Lena: The Society for the Blind in El Bireh, The Women's Union of Ramallah, and The Society for the Preservation of the Family in El Bireh. We are also planning to visit the Abu Raya hospital for the victims of the *Intifada* in Ramallah.

ETHICS

Our Ethics classes make us think about questions that will be important in our lives as we grow up. They are a chance for us to come together as Muslims and Christians and talk about issues we share. We think hard in Ethics, and we learn a lot about ourselves and each other.

Q: What is the students' opinion about Ethics?

Miss Caroline: The students like Ethics. They like to talk to each other and tell each other their ideas.

Q: How do they like the class compared to other classes?

Miss Caroline: They like the small class better than with all the students. Sometimes they like to work together with students from other classes.

GIRLS' EDUCATION WORKSHOP

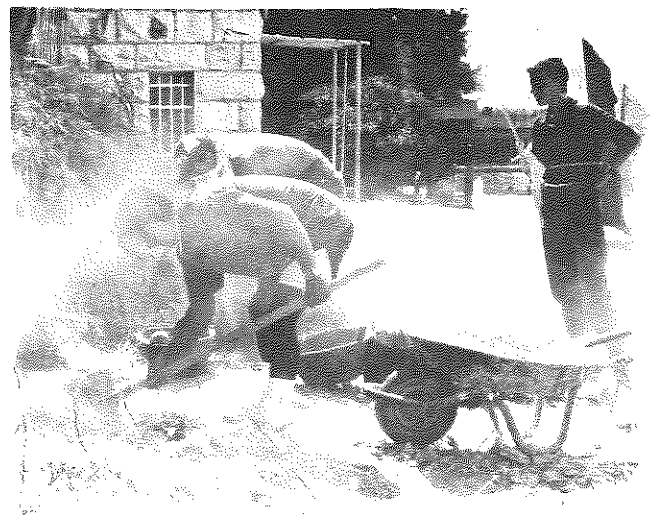

On Thursday 15 December, 1995 the FGS held and sponsored a workshop entitled "Girls' Education: The Facts of Today and the Challenges of Tomorrow". The guest speakers included Dr. Tafida Jirbawi, Dr. Cairo Arafat, Dr. Suha Sabbagh, and Mrs. Eileen Kuttab as the Facilitator of the workshop. Among the guests were a large number of Arab and foreign academicians, and FGS and FBS teachers and staff.

In her welcoming speech, Mrs. Diana Abdel Nour, stressed on the main goal of the workshop, which is to shed light on the problems of educating girls and achieving equality between the sexes. A special thanks went out to the OCSD- OXFAM/Canada for their financial and spiritual support for the workshop.

SCHOOL CLEANUP

This fall, students from FGS and FBS held work days and cleanup sessions to improve the school's general appearance and remove rubbish from the grounds. We now have new, brightly-painted trash bins all over campus, and students can take pride in how nice the school looks. It was hard work, but with great results!

Together...We Grow

Music

This year our music program got bigger and better. We have two music teachers now, a chorus, and a recorder club. We have performed during chapel and for our parents and friends. FGS loves music!

Q: How did you feel when you came to this school to teach music? Do the children like you or not?

Miss Anna: I think that they like me.

Q: How do the children like music?

Miss Anna: Because music is fun, the children try to see how much they can play before I stop them. So they know that I will be angry if they don't take music seriously.

Q: How do you think learning music can be?

Miss Anna: I think learning music can be fun and serious at the same time.

FRENCH

Bonjour!

Nous sommes la classe de français 7^{ème} B. À votre gauche vous voyez une photo de nous avec notre maîtresse Shafikah Taha qui porte dans ses mains une des activités que nous avons fait pour le français.

Hello!

We are the French students in grade 7B. To your left you can see a photo of us with our teacher, Miss Shafikah Taha, who is holding in her hands one of the activities which we made for our French Class.

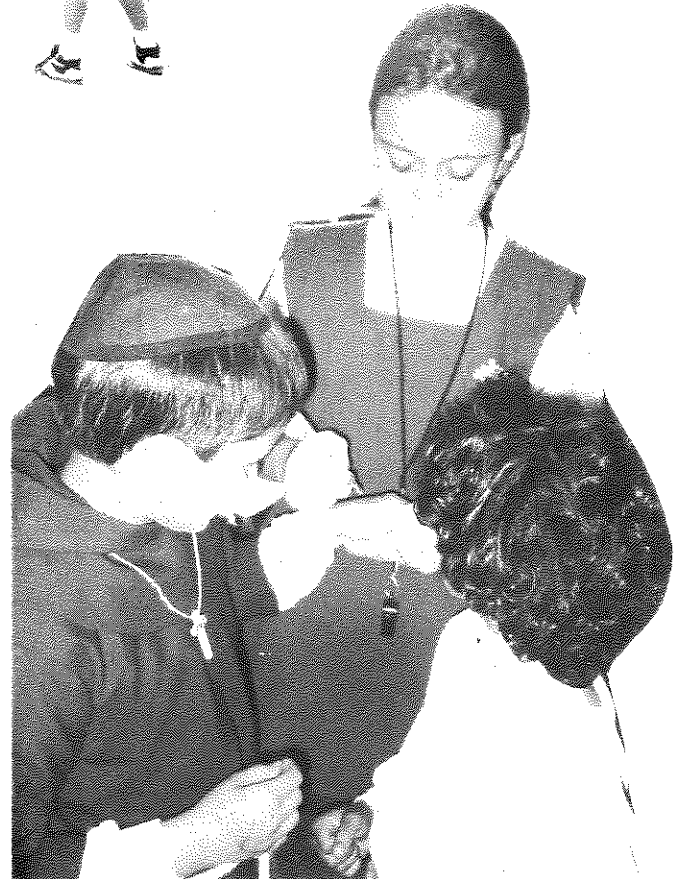

Cooperation means to me seeing people happy, not fighting each other, watching TV and playing together, not jesting with each other, living together, sharing happy and sad moments with each other. It is a good habit and it means "to be helpful".

Iman Abu-Awad 7B

Cooperation is to act as groups to reach a certain goal or purpose to make life easy. Cooperation to me means many things: it means a smile from a friend when sad, a hug from your mother when bad, or to cooperate with your teacher to give a good lesson, or with your neighborhood, or with any person. Cooperation makes you feel that you are an active person in this world, and gives you the right of being a human being. We all have to cooperate with each other to face problems so life goes on.

Reem Wahdan 7A

Cooperation means to me to become stronger by helping each other; cooperation doesn't just mean that you help others to build something, maybe you could build friendship. When you cooperate with a team and help them very much they become your friends. Sometimes working alone could make you feel lonely, but when you cooperate with others you will feel happy not lonely.

May El-Sayrafi 7A

Cooperation is people together willing to improve the world by speaking to each other. I think there are two kinds of cooperation: cooperation with hearts and cooperation with money. Cooperation with hearts is when a man is sad and we help him by knowing his problem and trying to solve it. Cooperation with money is when a poor man needs money to feed his children and the rich man gives him the money he needs.

MISS BIBI'S ROOM

This fall, FGS dedicated the improved KG classroom to Miss Bibi, in honor of her long-term contribution to the school. This particular classroom was chosen because Miss Bibi taught in it for over thirty years; it is now used for Arabic activities in the Kindergarten.

ANAN'S TREE

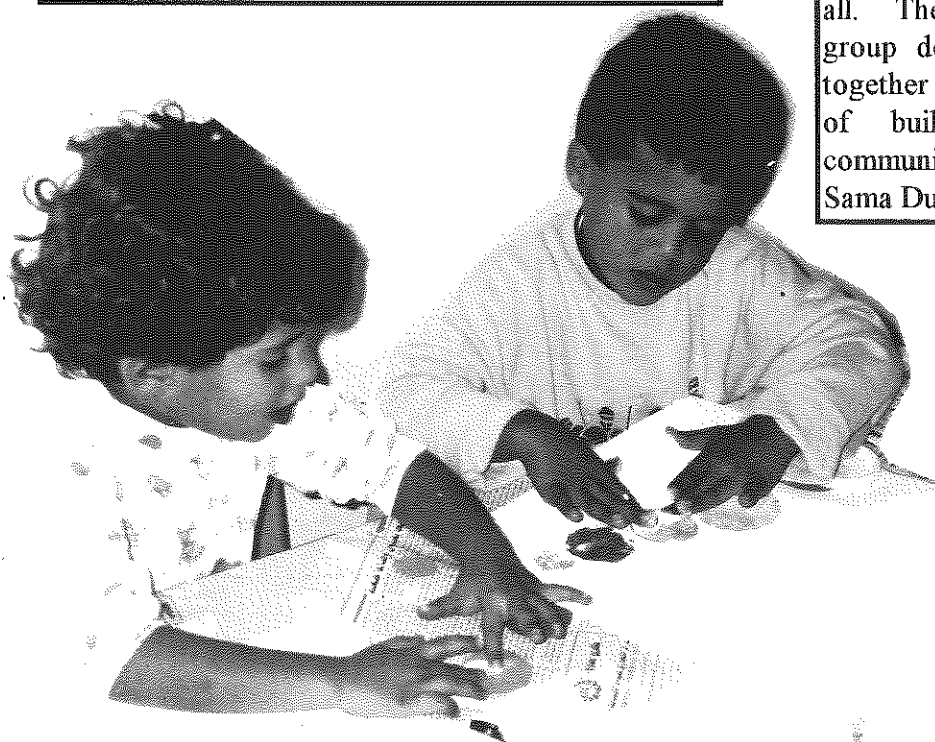

In November, students planted a tree in memory of Anan Barghouti (Grade 6A), killed this past fall in an automobile accident. The tree is located in the school's central courtyard, and serves as a permanent reminder of our student and friend, who is greatly missed.

To my understanding cooperation is the most wonderful thing that could happen to a person, family or community. I hope that the spirit of cooperation and working together will be an important fact in our lives, especially now that we are going to build a new country and a new government. So to have a strong nation we will have to work together and help each other and to cooperate in everything.

Hala Abdel Samad 7B

Cooperation reflects the spirit of the community. It holds everybody together, working for the welfare of all. The success of any nation or group depends on how they work together as a team, united in the spirit of building their nation and community.

Sama Duwani 7A

Wars build only fences of hatred, fences of greed and darkness. Wars use armies of hatred and darkness; they only use weapons that kill. They take from a person whatever he had and might have had of love. My friend, don't go to war; you will only go to be killed and to die. Why not understand one another and make peace?

Rami Azzam 6A

I think that cooperation is to help each other in the world or anywhere in the galaxy. When many people cooperate they will be the best and make the best and they will have the power to make anything better. We the children today and tomorrow could stop wars and stop destroying the world and make it better; with cooperation we could do anything.

Nur Shayeb 7A

"Chapel" 1994-1995

ضمن أحد اللقاءات الصباحية التي تعقد صباح كل اثنين في المدرسة ، قامت معلمة التربية الدينية السيدة لينا حموده بدعوة كل من سماحة الشيخة مكرمة صبري مفتي القدس والمطران لطفى لحام ، وذلك لتجسيد التلاحم الإسلامي المسيحي في المجتمع الفلسطيني ... حيث ركز كل منهما في كلمه على الإنسان و على أهمية التعااضد و المحبة بين البشر . و قد قاما بالتعاطق أمام الطلاب بأبراز أهمية الوحدة بين أبناء الديانتين السماويتين ... مما كان له أبلغ الأثر على جمهور الطلاب و الحضور ... أملين أن تتعزز هذه الوحدة في هذا الوقت الذي نحن في أمس الحاجة إليها ... و أن تنعكس هذه الصور على جوانب حياتنا اليومية .

In one of the regular Monday Chapel meetings at FGS, Miss Lena, the Islamic Religion teacher, invited the Grand Mufti of Jerusalem (Ikrema Sabri) and Archbishop Lutfi Lahham to speak to the students. The intent of this meeting was to represent in the flesh the unity of Islam and Christianity in Palestinian society. Each man concentrated in his speech on the importance of solidarity and love between people in Palestine. The men embraced in front of the students to show them the importance of unity between the two great religions; this embrace greatly moved the audience. Both Sheik Sabri and Archbishop Lahham hope that the unity of which they spoke will be embodied in society, particularly at this time when we have so much need for it. The image that this embrace created for us should be reflected in every aspect of our daily lives.

Dear Teacher...

To Miss Amal:

I want to thank you for your kindness, because when I came to FGS I felt lonely, but with your help I started feeling respected and welcomed. Thank you very much!

Amal

Maybe I find Miss Amal the best because she is my English teacher and I love English. Miss Amal is so understanding, she realizes that we are students and how students act in their school years and she treats us like grown-ups and we like that. When someone does something wrong she talks to him (her) gently, not like some other teachers. She tries to make us understand that not everything is a joke and that is of course gentle. I think her way of treating us is very good.

Lara

Dear Miss Sabira:

I think you are a really nice and cool teacher. I like the way you teach us. We understand every word you say and we enjoy your class very much because you're in it.

Haya

Dearest Miss Sabira:

First, I want to thank you for your kindness, I really like you and your classes. I like the way you teach us and make the religion class very interesting. I feel that you are like my friend and not just like my teacher.

Hala

Dear Miss Aida,

I like your classes very much and I really enjoy them because we learn while laughing. I like your special way of teaching that makes me understand. I feel comfortable in your classes and I like to write Arabic compositions. I really respect you.

Reem

Dear Miss Aida,

I like your class but I always get low grades in tests. You don't give us a lot of homework or tests and you don't scream at us. But I don't want you to teach us next year because I want to get better grades.

Rabie

Miss Aida is my best teacher because she is tall and always has a big smile on her face.

Ahmad

Miss Elena,

I like your work a lot. You are very hardworking, and a good artist, and I like you as a friend. Also the art gives me relief from other school work...there are lots of reasons why I like you.

Buraq

Our Thoughts About You

Dear Miss Elena,

Thank you for teaching us this year; I don't like any teacher as much as I like you. At the end of each school year, I felt that I didn't learn anything, but this year I learned many things in art that I couldn't do before. I will remember you forever, Miss Elena.

Nur

Dear Miss Siham,

Thank you very much. I really appreciate your work in class; teaching us this year was lovely. You give us much advice in class; to ask, to understand everything. I am glad to feel progress after each of your classes, but I think you must be stricter with students. I hope you will be my Biology teacher next year.

Sama

My favorite teacher is Miss Siham. Her teaching skills are almost perfect. She is nice, cool and from America, just like me. She doesn't scream and always is prepared.

Paul

Dear Miss Marlene,

I love Miss Marlene very much, because she always lets us do what we want. When I become bigger I will become a PE teacher. I hope to learn many things from you.

Malvina

I love Miss Anna very much. She is a good teacher and I like her and sometimes her class is nice. But the bad thing in her class is that we go home 5 or 10 minutes late and sometimes I am afraid, I don't know why.

Razan

Dear Miss Shafiq,

I like the way you teach us because I think it's enjoyable to use gestures in teaching. You try to make us speak French very well. I love you and I'd like you to teach me the following years. Merci!

Dima

To Miss Nabila:

I like your lessons very much, because you teach us many things, not just math. I feel that we learnt from your lessons very many things. You are a teacher that tries to make her students the best students in the school. Thank you!

Taha

Miss Nabila is a very good teacher. She is nice, cool and beautiful. Sometimes her tests are easy and sometimes they are so hard! She gives us a lot of homework and tests but still we all like her and hope she stays in this school.

Rita

Cooperation in our lovely school means a lot to each student and teacher. Teachers use it by helping the students understand the lesson very well, and helping them do their homework in the right way, and if they do not understand any thing in the lesson, they try their best to help them to understand it. At recess they stand all the time solving the problems of their students, and they can help each other, too! We students do a lot with this thing, too. We all try to make discipline in our school. We all help to clean our school so it will look beautiful. We cooperate by listening and paying attention in class and by doing our homework. Let's stand hand in hand and make cooperation so we'll understand!

Dareen Khayyat 7 A

If we cooperate we can do everything in the right way. This happened to me when I changed my school. I felt sad and lonely at first, but after a while everything started to change. I cooperated with my classmates, and I started a new life with new friends. They helped me to be one of them.

Ahmed Thalji 7B

In FGS our class 7B is the most cooperative. We painted the garbage buckets, so everybody will let the school be clean. Only some students put garbage in the garbage buckets, others don't. Some boys in our class are weak and we help them in their homework and study with them so they get good grades. We play together and don't care if it's with a boy or a girl, we just play and have fun. Our class is full of cooperation.

ما تكم على العمل... يا عين تملها و الله تاملها في

Ach! Grade two, is hurting my heart!

خايني مامك... خايني مامك

شبقه يابيل بنفكري يا شبقه يابرقه

Ooh! You're shaped like a shield!

ياي... فاش طهيا امتان...

إخطي - كان لازم تدعسي المي (Mi)

Are you waiting for your food?

Cooperation means many things. It means to be kind to others, a nice society, happiness, joy and peace. In other words it means not having war like in Bosnia, not having a man killed while praying like in Palestine. It means helping others in time of difficulty, to be kind to others, to be one hand to help each other, to have a smile from your friend. It means to be human. That's how cooperation can help our society to grow up in freedom and happiness.

Manal Hijaze 7A

Cooperation means a lot to me; if everyone knew how to use it and to live with it we could be now living in freedom and peace. Unfortunately in our town you scarcely see cooperation among its inhabitants. Cooperation among people is very essential; it creates understanding and love.

Nelly Soudah 7A

Cooperation means for me to be kind and to be able to work with others. It means that we have to help each other. Cooperation starts at home. When I help my young brother it is cooperation, when I help my mother it is cooperation. With cooperation we can build a future, and live in peace with our family and in our country. It means working together to save each other from danger and dangerous people. With cooperation we can succeed.

Rasha Husary 7A

Cooperation is good. It would let the people be happy, and let the people help each other, and let rich people help the poor people, and give them money. Cooperation would make all the Arab cities be like one hand.

Rami El-Zein 7B
