

Dear Class of 2022

I hope this email finds you in good health. I am sure you are excited to finish the personal project, but probably feel confused and anxious about everything that is going on.

In times of crisis, it is necessary for us to find some stability to hold on to. This may come in many forms, writing, exercising, or sticking to a specific routine. As you stay home for this extended time, you will come to realize how important the school routine is, the deadlines your teachers set and the daily homework assignments. So in the coming few days, as we start communicating distant homework assignments, I hope this will help bring some structure to your day, and some peace of mind.

We contacted the IBO and informed them of the state of emergency we are under. We are now on their Adverse list and receive daily updates and check-ins from them.

The deadline for the Personal Project submission will remain as set previously, March 15th, 2020. Please submit your reports along with the personal project cover page form (attached) by March 15th, 2020 at 8:00 p.m. to your advisors with a copy to Mr. Anan Barghouthi.

Here are ways to share your product with your teachers and Mr Anan:

1. Films are to be shared either via google drive, or Dropbox, or WeTransfer, or via a YouTube link if the film was uploaded on line.
2. If you project is a website, please send the link in the same email you send your report.
3. If your product is a brochure, please share the PDF version of the final product, if you have it via GoogleDrive or by email (depending on your file size). If that is not available to you, please take at least five photos of the brochure showing every page, and component
4. If your product is a model, painting or any other object, please send no more than five pictures of the production with your report and cover sheet.
5. If your product is a music piece, please send a video of yourself playing the music either via Google Drive, DropBox or WeTransfer.

Here are the links to the DropBox and WeTransfer in case you use them. **Only use these if the file size is too big for Google Drive or your Email to handle.**

Mr. Anan always ends his emails with the following quote:  
**"CREATIVITY IS TO CREATE SOMETHING OUT OF NOTHING"**

And I cannot think of a better quote for this time!

Best of luck to all of you, we look forward to seeing your work virtually next week, and we hope to see it in person once this crisis ends! We shall celebrate your accomplishment when we are able to return to school.

WeTransfer (this one is easiest, based on my own experience)  
<https://wetransfer.com/>

DropBox  
[https://www.dropbox.com/?\\_hpc](https://www.dropbox.com/?_hpc)

PS You may access Google Drive through your email.
